

## FOREWORD

This catalogue lists spare parts for cars of the P444 series with effect from chassis No. 131918.

The P444 series incorporates type designations P44403, P44404, P44408 and P44409. Type designations P44403 and P44404 appear on all markets except the North American market whereas P44408 and P44409 are exclusive to the North American market.

<u>Type designation</u>	<u>Engine</u>	<u>Transmission</u>
P44403 (Std. chassis)	B16A	H6
P44404 (Special chassis)	B16A or B16B	H6 or M4
P44408	B16B	H6 or M4
P44409	B16D	H6

  

<u>Engine designation</u>	<u>Part No.</u>
B16A	495382
B16B	495385
B16D	495386

There is an index on pages 1-3 which shows the main component groups into which the catalogue is divided. As well as this there is an alphabetical and numerical register at the rear of the catalogue. The type designation, chassis number, colour code and upholstery combination are stamped on a plate attached to the front left of the firewall.

The engine designation and number, on earlier engines, are stamped on a plate attached to the right-hand side of the engine block. In the case of late engines the designation and the first five figures of the part number are cast into the left-hand side of the engine block and the final figure is die-stamped. The engine serial number is also die-stamped. If the engine designation is quoted in conjunction with an inquiry or order the part number must also be quoted.

Certain units in this catalogue are designated "complete". All components displaced to the right under a complete unit are included when the unit concerned is purchased.
